

# Enrichment

Enrichment is an essential element to help our students to be future ready for their next stage in life.

All students take part in an enrichment programme starting in Year 12. This includes a PSHE and aspirations programme utilising strong links with local and national Universities and employers providing opportunities for students to gain work experience, employability skills, interview experience and experience undergraduate lectures alongside the traditional A Levels.

*“St Wilfrid’s sixth form is a relaxed yet studious environment, where everyone is at home and can perform to their best. The teachers are round the clock workers with emails, information, exam questions and just general care. When you see how hard they work, you strive to be worthy of their efforts. It’s an incredible place with an inspirational team who really stretch and invigorate their students. They send you out into the world as a new and confident person – and, clichéd as it sounds, it’s shaped me for life.”*

**James Inkster**

Jesus College Cambridge (sixth form leaver)

# Mission statement

At St. Wilfrid's Roman Catholic College we are committed to inspire and develop all members of our community on a journey through faith and learning.

We strive to achieve excellence and overcome challenges through mutual respect and consideration, underpinned by Gospel values.

Faith and learning is at the heart of everything we do to ensure that every child fulfils their full potential.

The St. Wilfrid's Motto

*Excellentia per fidem, per scientiam, per adiuvatum.*

Excellence through faith, learning and support.

## What the Pupils Say

Grace Jameson  
Head Girl

St. Wilfrid's sixth form is a place for students to not only reach their full potential with the help of the teaching staff but it is also a place for students to meet new people and have access to opportunities that help them to become independent learners. Sixth form students are provided with a support system in the form of teachers, study sessions and UCAS support to help them find the higher education pathway that is right for them, whether this is university, an apprenticeship or a job. Furthermore, through the access of enrichment activities such as charity work and debate club St. Wilfrid's sixth form allow its students to become well-rounded individuals with a respect and kindness for others."

Ben Whitehead  
Head Boy

"In my time here, with the help of the excellent network of teachers, I have been pushed and challenged both academically and personally.

St Wilfrids's wants nothing but the best for every student and this is evident through the support given consistently throughout GCSE's and now whilst completing A-levels and applying to university. I am extremely privileged to have the opportunity to give something back to a school that has helped me for so many years."

# Choosing the right course

Choosing the right course at sixth form is very important. Obviously, it is very important that you choose a course which is suited to your own individual needs and we are aware that this is not always as easy as it seems.

## Step 1

- What are your predicted GCSE grades?
- Which subjects do I really enjoy?
- Where will these subjects lead to?

## Step 2

- Consider your interests (there is a lot to be said for doing something you enjoy)
- Consider your strengths and weaknesses (how do you learn best, do you perform best in exams or coursework, do you like writing essays?)
- See individual subject pages for detail on assessment and course content.

## Step 3

- What qualifications do you need for career options?
- What qualifications do you need for college or university courses?
- It is vital that you research as thoroughly as possible the entry requirements for your chosen or possible career path.

## Step 4

- Make sure you take up all the advice and help offered by school over the coming months.

## Admission Process

Students will be offered a place at St Wilfrid's Sixth Form on the proviso that they meet the following criteria:

- At least five grades grade 9–4
- If a grade 4 is not achieved in mathematics or English language, students must resit these exams alongside their level 3 qualifications
- A minimum of a Grade 6 at GCSE in the subject they want to study at A Level. (A grade 7 or higher at GCSE will be required for science and mathematics).
- A minimum of a Merit in the subject they want to study in Vocational Subjects.

If there are any issues regarding the above on GCSE results day, staff will be available to support and advise the students of their choices post 16.

# Why choose St. Wilfrid's Sixth Form?

## 1. Wide choice of courses

Students in the sixth form can choose from a number of different vocational courses and A Level courses.

Students may combine vocational and A Level courses in Year 12 and will continue with 3 of these subjects into Year 13.

## 2. Suitable progression

The subjects we offer at sixth form are chosen because we know what subjects you have studied in your GCSEs and vocational courses and we want to provide you with suitable routes for progression.

Once you have successfully completed your chosen sixth form courses the qualifications you have gained will give you access to university, further education, advanced modern apprenticeships and employment.

## 3. Teaching staff & sixth form students

Many of our sixth formers comment on the need for individual support and individual tuition from teaching staff.

Students will like the fact that classes will usually be smaller and that you will get a lot of personal help with your academic studies. Subject teachers monitor all their students on a weekly basis, making a return to the Head of Sixth Form. This will ensure that we spot issues immediately and support and encourage students to be successful at all times.

## 4. Modular assessment

At the start of Year 12 each student is given target grades for every vocational and/or A level subject they study. These take into account for your own GCSE and vocational results in Year 11.

Ten weekly modular assessment continues at sixth form and gives students and parents/carers, the opportunity to receive regular updates on your current performance in your chosen subjects. It also helps students judge whether or not you are on course to achieve your target grade in that subject.

## 5. Pastoral care

A strong feature of the sixth form provision will be the pastoral care you will receive as a student. Students will stay with the same tutor in Year 12 and Year 13. This means there is always someone who has a good knowledge of your skills, strengths and weaknesses and is best placed to advise you on career options and work habits.

## 6. Enrichment activities

Students will take part in an Enrichment Programme. You have a range of options which they choose to participate in over the course of the year. Typical types of activity are: Community Placement; General RE; Sport; Culture; Peer Mentor.

## 7. Privileges

Sixth form students are expected to act as ambassadors for the school at all times and are therefore given more responsibility within the school environment as we try to prepare you for more independence at university or in employment.

## 8. Private & independent study

This gives students the opportunity to start homework or complete directed study time tasks in school using the sixth form facilities.

## 9. Post-18 careers advice

We want all our sixth form students to be aware of the choice of opportunity your qualifications will give them. So very early on we start to actively encourage you to think about what careers you are interested in and how to achieve them. As a result every student will get the chance to visit local universities, attend open days, participate in taster days and hear from a range of guest speakers from real working environments.
