## Keeping your child safe during their school work placement.

The safety of your child is our  
number one priority.

Our work placement employers  
undergo additional checks to make sure  
they're working to the very latest  
Covid-19 safe-working practices.

Your school will ensure all workplaces  
have the **Covid-19 safe tick**  
before arranging any work  
placements for your child.

### Covid-19 safe employers have:

- **Risk assessment**  
Employers have an updated risk  
assessment incorporating any extra  
measures in place due to Covid-19.
- **Social distancing**  
Business complies with social  
distancing guidance.
- **Staff awareness**  
Clear communication to all  
employees so that staff are aware  
and know what they need to do to  
comply with extra measures.
- **Enhanced cleaning**  
Cleaning and sanitation of surfaces  
meets strict Government guidelines.
