

Careers Vision

2022 - 2023

St Wilfrid's RC College is founded on its mission of 'Excellence through Faith, Learning and Support'. With Gospel values at the core, our students leave school resilient, confident and well-rounded individuals with the knowledge to make informed future choices. Driven to success by clear goals, they are outward facing members of society making positive contributions.

As a Catholic School our core mission is to support everyone to aspire to excellence. To this end, our careers programme is at the heart of empowering students to set personal goals which drive progress and attainment. A bespoke programme has been developed for each year group to ensure individual needs are met and activities are appropriate to student stages of career learning. Informed by national and local labour market information and the Gatsby Benchmarks, this is delivered through PSHE, subject areas and key events.

St Wilfrid's RC College Careers Education and Guidance policy and programme has the following aims:

- To contribute towards raising achievement by increasing motivation through student goals and aspirations
- To provide opportunities for career exploration in learning and real-life context
- To provide information for student to make informed choices and confidently adjust plans to manage change and transition
- To develop enterprise and employability skills
- To support self-development where students understand themselves and the influences on them.

Student voice is used for two purposes. As an opportunity for individual students to review careers encounters making links to subject areas and the curriculum and as a mechanism to monitor and evaluate current provision with a view to continuous improvement in the planning of the next academic year.

Year 7		
	<u>Intent</u>	
	Transition support begins in Year 5 and 6 in a series of transition events. Once at St Wilfrid's students are supported in their transition from primary to secondary with a series of pastoral and curriculum sessions to develop relationships and understanding of opportunities and expectations. This includes opportunities to consider vision, hopes for the future and investigating different job roles and the local labour market. Students are introduced to the Careers posters. These make explicit links to potential jobs linking to subject areas and the skills needed in these roles. Schemes of Learning across the curriculum make explicit reference to careers. A Science Careers Fayre explore STEM related jobs with a range of employers and people in different roles for students to engage with. Local Labour market information is discussed in assembly using language students understand. Business posters mirror the Careers subject posters and provide information about local businesses, job roles and key skills. Enrichment week pulls together threads from the year and is resolved in a student survey.	
	<u>Implementation</u>	
	Year Group	Further Enrichment
Term 1	<ul style="list-style-type: none"> • Careers in Subject area posters across the school site - transferable skills. • Careers in Subject area posters across the school site - transferable skills. • Daily PREP slides and Google Classroom year group streams, highlight future careers-based information and opportunities. • PSHE- Work Related Learning • Careers in the Curriculum Week – 31st October to 4th November. 	<ul style="list-style-type: none"> • Student council • Student mental health ambassadors • KS3 STEM clubs • KS3 Maths club • Careers weekly lunchtime drop-in sessions - PGN
Term 2	<ul style="list-style-type: none"> • Careers Assembly; LMI information - skills across subject areas. • National Careers week activities – 6th to 11th March 2023. <ul style="list-style-type: none"> ○ Careers in the Curriculum – ‘A day in the life of...’ • Careers Section developed in library. • Careers Science Fayre- Employers/HE/FE exploring careers routes. • Careers Science Fayre – Speed dating session. • Zenith Training Provider Assembly – What are my options when I leave school? How do I get there? – 3rd March 2023 • Enterprise Adviser Assembly. • PSHE- Work Related Learning 	<ul style="list-style-type: none"> • Student council • Student mental health ambassadors • Rotary Technology Tournament • UKMT- Durham • KS3 STEM club • Careers weekly lunchtime drop-in sessions - PGN
Term 3	<ul style="list-style-type: none"> • Careers Assembly; LMI information - skills across subject areas. • Careers Fayre- During Activities week. 	Year 8	
	<u>Intent</u> Students will start to explore key skills and routes in job roles. The programme of assemblies and PSHE are planned to provide opportunities for students to explore and challenge stereotypes regarding gender, equality, diversity and inclusion and job roles. These range of activities will provide information in preparation for option choices in Year 9. Local Labour market information is discussed in assembly using language students understand to inform option choice. A Science Careers Fayre explore STEM related jobs with a range of employers and people in different roles for students to engage with. Enrichment/Activities week pulls together threads from the year and is resolved in a student survey.	
	<u>Implementation</u> Year Group	Further Enrichment
Term 1	<ul style="list-style-type: none"> • Careers in Subject area posters across the school site - transferable skills. • Careers in Subject area posters on new careers notice board - transferable skills. • Daily PREP slides and Google Classroom year group streams, highlight future careers-based information and opportunities. • PSHE- Work Related Learning • Careers in the Curriculum Week – 31st October to 4th November. 	<ul style="list-style-type: none"> • Student council • Student mental health ambassadors • KS3 STEM clubs • KS3 Maths club • Careers weekly lunchtime drop-in sessions - PGN

---	---

Year 9		
<u>Intent</u> The programme continues to build on encounters with employers and work investigating routes into different careers and possible pathways. This will include talks from local universities. Specific information to KS4 and post 16 courses is provided to support option choices. Other support for this key transition includes, assemblies, information events, tutor time, pastoral care, options evening. These include subject specific stalls providing information about course content and next steps and also has representatives from local universities to demonstrate next steps and raise aspirations. A Science Careers Fayre explore STEM related jobs with a range of employers and people in different roles for students to engage with. A Careers speed dating event provide further opportunities to interview employers from different sectors, local and national business and build up knowledge to inform future choice. Enrichment/Activities week pulls together threads from the year and is resolved in a student survey.		
<u>Implementation</u> Year Group		Further Enrichment

---------------	---	---

	YEAR 10
--	----------------

	<p><u>Intent</u> In Year 10 we provide opportunities for career exploration in learning and real-life context. All students plan and carry out a week’s work placement. Activities and skills are logged and used to review the experience and to inform post 16 steps. A Science Careers Fayre explore STEM related jobs with a range of employers and people in different roles for students to engage with. Student will also have encounters of employers on site through assemblies in the final term to explore different routes into jobs, qualification and the local labour market. Careers Interviews start in year ten, rolling onto year 11. Vulnerable students are targeted for follow up advice and support. A parent information event triangulates the home school relationship. NECOP workshops run in Enrichment/Activities week.</p>
