Bridging Unit

GCSE

A Level

Skill 1- Multiple Geographies

In geography you need to ensure you have a balanced approach, always looking at both sides of the argument. To do this you are going to need to extend your knowledge by reading and watching.

Task 1- Simon Reeve is an excellent geographer and brings exciting issues to us. There are lots of his tv programmes you can watch...in fact it is extremely hard to pick which episodes to watch! (Type into Google "Simon Reeve") If you have time they are all good to watch!! However, we have picked 3 episodes which we think are the best.

We would like you to pick **ONE** episode and complete the table below.

Issue	Cause	Effect	Response

The Americas with Simon Reeve

In this episode you will learn about some of the threats to our water supplies.

<https://www.bbc.co.uk/iplayer/episode/m0009tvs/the-americas-with-simon-reeve-series-1-episode-3>

Australia with Simon Reeve

In this episode you will learn about the impacts that people are having on the environment of Australia with a look at the Great Barrier Reef.

<https://www.bbc.co.uk/iplayer/episode/b021ncc4/australia-with-simon-reeve-episode-2>

Mediterranean with Simon Reeve.

In this episode you will look at the movement of refugees meeting some of the people prepared to risk their lives making the perilous journey from their homeland to get to Europe.

<https://www.bbc.co.uk/iplayer/episode/b0bqn4g1/mediterranean-with-simon-reeve-series-1-episode-4>

Task 2- Take a look at the grid below and complete any **two** tasks of your choice.

Create a personal geography map of your own area- include photographs, personal reflections and places of importance (Changing Places)	Watch one documentary on Climate Change- Create 20 questions that people could answer if they were to watch the documentary. (Water and Carbon)	What does Globalisation mean to you? Research and produce your own account to explain the impact of globalisation on our daily lives
Read the Geofact sheet 'The Changing fortunes of Manchester'- evaluate the success of the regeneration and rebranding. (Changing Places)	In 300 words, explain what 'geography' means to you. Give three ways in which the World Health Organisation (WHO) are helping to control the spread of Coronavirus	To what extent do you think the Coronavirus will change how trade around the world?
Read the Geofact sheet 'Antarctica'. Write a letter to the prime minister explaining three threats faced by Antarctica- which do you think is the most important one? (Global Governance)	Read the Geofile 'Coastal Systems, waves, sediments and cells' and summarise on 1 side of A4 paper. (Coasts)	Over to you! Choose any geographical topic that interest you. Set and research your own hypothesis.
